

Prince Kumar Gupta

Data Science | AI/ML Engineer

Phone:- +916386664148 | Gmail:- princegupta19998@gmail.com | GitHub:- [Github](#) |

Portfolio:- [Portfolio](#) | LinkedIn:- [LinkedIn](#)

Education

M.Tech In Data Science | SAGE University | (2023-2025) | **CGPA:- 8.4**

B.Tech in Electronics and Communication | RGPV University | 2018-2022 | **CGPA:- 7.41**

Work Experience

Metro Waste Handling Pvt Ltd | Full Time | Feb 2025 – Present

CRM Platform

- Created an AI-powered CRM with voice/text interfaces and multilingual support for enhanced customer engagement.
- Automated business workflows using FastAPI and LangChain, boosting efficiency by 40% with self-healing systems.
- Deployed scalable AI models to production using Docker, Kubernetes, and cloud platforms with secure CI/CD pipelines.

Webmobi360 | B2B AIML Solutions | Full-Time Internship | September 2024 – Feb 2025

- Developed an AI-powered Interview System, auto-generating dynamic interview questions.
- Built an LLM-powered chatbot to improve client engagement & automate responses.
- Implemented real-time object detection using YOLO and OpenCV for tracking & identification applications

Data Einstein | Data Science Internship | June 2022 – March 2023

- Developed predictive models using Decision Trees, XGBoost, and Random Forest, achieving 95% accuracy.
- Built marketing attribution models with Logistic & Linear Regression to optimize client budget allocation (85% accuracy).
- Collaborated with client teams to deliver AI-driven insights on time.

Technical Skill

- **Programming & Data Analysis:** Python (NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, XG-Boost), Statistics.
- **Generative AI & NLP:** LLMs (LLaMA, GPT), RAG, Prompt Engineering, Fine-tuning, LangChain, HuggingFace, Ollama, Deep Agents, Vector Databases (Pinecone, FAISS, ChromaDB).
- **MLOps & Deployment:** CI/CD, Docker, Kubernetes, FastAPI, Flask, Streamlit, MLflow, DagsHub, n8n.
- **Machine Learning:** Supervised/Unsupervised Learning, Deep Learning (CNNs, RNNs, LSTMs), Hyper-parameter Tuning.
- **Cloud & Tools:** AWS, GCP, MySQL, Microsoft Server 2022, Tableau, Power BI, GitHub.

Projects

(All Project Link:- <https://prince19998.github.io/Portfolio/>)

Mood-Based Music Recommendation System

- Designed a music recommendation web application similar to Youtify.
- Planned features including mood-based recommendations, playlists, favorites, and analytics

Meeting Summarizer Bot

- Developed an AI-powered meeting summarization system.
- Implemented file upload, summarization, database storage, and frontend/backend integration.
- **Flight Fare Prediction:** Developed a regression-based price forecasting tool using Random Forest and XGBoost, achieving a 90% R2 score.
- **Heart Disease Detection:** Improved classification model accuracy from 78% to 94% through advanced feature engineering and SMOTE techniques.

Certification

- Certified Data Scientist (Data Einstein Pvt Ltd)
- Udemy ML,NLP,MLOPS Deployment Bootcamp (KRISHAI Technologies Pvt Ltd)
- Udemy Generative AI with Langchain And Huggingface (KRISHAI Technologies Pvt Ltd)
- AI/ML Engineer Intern(WebMobi 360)
- Certified Data Science (IBM)
- Certified Data Science (ASTRION VENTURES)
